ABOUT THIS RELEASE

Replaced:by 1362.4

Brings together a range of ABS and non-ABS data to provide key economic indicators for 20 regions (Statistical Subdivisions) in South Australia. As well as enabling easy comparison between regions, the data are also presented as a time series providing useful information on changes over time. Included are indicators on: population, labour force, social security welfare recipients, agriculture, building approvals, motor vehicle registrations and income. Graphs, commentary and reference maps complement the statistical data presented.

Similar information for other regions such as Statistical Local Areas can be obtained on request as a special consultancy service.
